## **DETAILED ACTION**

1. This office action is in response to communication filed on Jun. 23, 2005.

2. Claims 1-23, 26-27, 30, 34, 37 have been canceled.

## Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 24-25, 28-29, 31-33, 35-36, 38-41 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Identifying a direct current DC component, controlling operation mode, DC offset critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Since the subject maters described above have not supported in specification, therefore claims 24, 28-29, 31-33, 35-36, 38-41 are rejected as set forth above.
